◆ 2020 Golf Tournament web brochure			

Over the past decade, the CES Golf Tournament has raised almost \$599,650 for the Capstone Engineering Society Endowed Scholarship Fund. Since 2006, 141 students have received scholarship support. The results of this tournament certainly make a difference for the Capstone Engineering Society and The University of Alabama College of Engineering in our mission to provide scholarships and to ensure that UA engineering and computer science students are provided a superior educational experience.

"Scholarship organizations, such as the Capstone Engineering Society Scholarship Fund, are responsible for many college students achieving what they would not be able to without financial help. Once again, thank you all for making this college journey easier and more accessible for both lives you have impacted. myself and all those whose Without such scholarship supporters, there would be less college araduates. and many people would not be where they are today. So, thank you for the opportunities you have awarded to myself and all other students who are positively affected by this scholarship program."

Larry D. Wink, Jr., The University of Alabama Chemical and Biological Engineering, Class of 2017
